KEWEENAW RINK CO. MEETS AND ELECTS NINE DIRECTORS

Annual Report Shows That Neat Profit Has Been Made on Investment, and Bright Season is Apparently Ahead—Work on Extensions of Mohawk Water System Completed.

The annual meeting of the stockholders of the Keweenaw Rink company was held in the Mohawk mine office yesterday afternoon. Aside from other important business a board of directors, nine in number, was elected, consisting of the following: J. P. Peterson, Willard J. Smith, F. H. Gletschell, Thomas H. Berryman, Dr. A. R. Tucker, George R. Foley, Thomas E. Parks, James E. Jackson and John Saam.

Plans for the coming season were discussed and a report for the fiscal year just closed was read, which showed the company to be in excellent financial condition. The earnings were better than anticipated and showed a neat per cent of profit on the amount of money invested.

Improvements, including painting the entire structure, and slight repairing and remodeling of the interior of the rink were made during the summer. Charles Oakes, who will take care of the place this season, will commence his duties Monday morning, and will have the place in readiness within the next few days so that ice can be made just as soon as the weather warrants it. The outlook for the coming season is very bright.

Complete Water System Works.

The last installment of water pipe for fire protection purposes arrived here this week and was laid immediately. With the completion of this work Mohawk has one of the best equipped fire protection systems of any town in this district. This summer's work has greatly improved the system, consisting of extensions of the main line along Stanton avenue, Second, Union, Mohawk, Seventh and Eighth streets, and the placing of several additional hydrants which will greatly facilitate the handling of fires. Owing to the difference of elevation in several parts of the town it was found impossible to raise sufficient pressure on the mains to fight fire on the upper levels without bursting the piping system in the lower places. To overcome this difficulty several valves have been placed at intervals along the line which can be closed, thereby shutting off the lower end of the system if necessary, in case fire should occur in the higher district. Several tests have been made recently at the various hydrants about town and the system has been found to be in perfect working order.

Mohawk Brevities.

Arthur Pollard has resigned his position with the Mohawk Mining Co. and returned to his home in Calumet. Hon. Fred W. Corbett held the attention of a large audience in St. George's hall last evening with his temperance lecture.

George A. Smith of Greenland visited Mohawk on business Friday.

A. Carter of Norway, Mich., has accepted a position with the Mohawk Mining company.

Next Tuesday marks the opening of the Pinchle tournament in the fire hall under the auspices of the Mohawk fire department.

HUNTERS GETTING READY.

A number of Calumet hunters are preparing to leave next week for the various hunting camps, in order to be on hand bright and early for the opening of the deer season, which occurs on November 19, and ends November 31 inclusive. Deer are reported in considerable numbers in Keweenaw county and through the South Range district, while a number are also daily seen in the iron country district.

OPEN NEW THEATER SOON

C. S. Sullivan's Royal moving picture house, located in the Ryan estate block on sixth street, will be opened for the first time a week from today, November 13. Contractor Will Milford will complete the carpenter work on the structure today. The electrical wiring will also be completed this week. Next week the plasterers and decorators will be engaged. The seats for the house have arrived.

UPPER MICHIGAN FIREMEN MAY JOIN STATE SOCIETY

Pensions for Disabled, Aged or Injured Members and Widowed Families Are Being Urged—Upper Peninsula Association Will Retain Its Identity, However.

The various fire departments connected with the Upper Peninsula Firemen's association are being urged to affiliate with the Michigan State association, and although none in the copper country have taken any action upon the proposition yet, it is likely that it will be seriously considered in the near future by several. The fire department at the Soo has already joined the state association, and although it will retain its connection with the Upper Peninsula association, it will hereafter be represented at the state meeting as well.

At several of the annual tournaments of the Upper Peninsula association, representatives of the state association have urged that the entire association join the state body. They have met little encouragement, however, for although the aims of the upper peninsula union are very similar to those of the state organization, and the closest possible bonds of brotherhood exist between the two; the expenses which would be incurred in sending the departments from this section to the conventions below the straits is almost prohibitive.

Now it appears, that the state organization is making an effort to prevail upon the strongest departments in the upper peninsula association individually to affiliate with them. It is possible that some steps will be taken, and that the firemen in the copper country will be represented at the state convention, by at least one representative in the future.

The next state convention will be held at Bay City, beginning on the Tuesday after the first Monday in June. The state association was formed in 1875 and has a much larger membership of paid and volunteer departments than the upper peninsula body.

The upper peninsula departments will probably join those of lower Michigan in the fight which is soon to be waged in the legislature to secure the enactment of a law providing pensions for disabled, aged or injured firemen and their widowed families.

CLOSING REVIVAL MEETINGS.

Farewell Festival at Swedish Salvation Army Hall Tonight.

A farewell festival will be given at the Swedish Salvation army hall on Fifth street this evening in honor of the revival brigade which has been in this city for the past week, conducting special services. The festival will open at 7:30 o'clock. A fine musical program has been prepared for this occasion, both brass and stringed instruments being used, as well as several vocal selections provided. Among the best numbers on the program will be:

The Calumet March, for mandolin, violin, guitar, and flute.

Zylophone solo, by Lieut. Fristrup, the band master of the brigade.

Flute solo, by Lieut. Fristrup.

Recitation in Swedish by Capt. Jacobson.

Recitation in Swedish, by Adj. Lybeck.

Touching story by Capt. Sande in English, "The Fare Paid."

The program will also contain a number of other numbers, coffee and cake will be served, and an invitation is extended to all who are interested in the work to attend, as this will be the last concert to be given by the members of the brigade.

All the meetings on Sunday will be conducted at the Swedish Mission church, on Third and Tamarack streets, Laurium. The meetings will be held at 10, 2, and 7 o'clock, when the members of the brigade will bid farewell to Calumet. A meeting will be conducted on Monday evening in Houghton, and the workers will proceed to Superior. The revival brigade's tour will continue five or six months, and will take them through ten states.

Mrs. Joseph R. Reed was pleasantly surprised by a number of friends at her home on Wednesday evening.

CALUMET RESIDENT DIES OF TYPHOID FEVER TODAY

After a very short illness with typhoid fever, John B. Sloan, of 1419 Lake Linden avenue, died at the C. & H. hospital at about 8 o'clock this morning. Mr. Sloan was taken to the hospital on Thursday, but was so low that it was impossible to save his life.

Mr. Sloan was 48 years of age, and was born in the copper country. He was employed by the C. & H. mining company as cupola man at the foundry and was well known in this city. Two sisters, Mrs. George H. Calverley, and Mrs. Michael Brennan survive him as well as a wife and seven children, who are: George B. Sloan of the Glass Block store, Misses Eva, Veronica, Mildred, Katherine, Margaret and Jeanette.

Mr. Sloan was a member of the Ancient Order of Hibernians and of the Catholic Order of Foresters, the members of which organizations will attend the funeral. The services will probably be conducted at the Sacred Heart church Monday morning.

BUILDING WORK PROGRESS.

Contractor Milford is rushing work on the Herbert Sobey residence, corner of Pewabic and Fulton streets, Laurium. It is a two story frame structure, containing six rooms, and is modern throughout.

Contractor Milford has completed work on the St. Joseph's Austrian church parsonage. This was the old Grille home. It has been thoroughly renovated within and without and is now receiving its final coat of paint. The building will be ready for occupancy one day next week, it is expected.

PICTURES ARE AUTHENTIC.

In answer to an inquiry as to whether the moving pictures to be shown at the Calumet theater by Lyman H. Howe, on November 13 and 14 are entirely authentic, Manager John D. Cuddihy of the theater this morning received the following telegram from Wilkes-Barre, Pa.

"Yes; we positively guarantee that our moving pictures," Dash for the North Pole, are absolutely authentic in every respect. You cannot emphasize the fact too strongly."

Lyman H. Howe.

The Elks' new bowling alleys have been shipped. The employees of the Brunswick-Balke-Collender company, who have been here installing the alleys, have returned to the factory in Chicago. The company has several men working in different parts of the Upper Peninsula, however, and as soon as the automatic pin setters arrive word will be sent to some of these employees to come to Calumet to install the device. As soon as the pin setters have been installed, the house committee will likely accept the alleys.

Mrs. Stephen Snell of Butte, Mont., who has been visiting her parents, Mr. and Mrs. Crowley of Calumet street for some time, has returned to her home.

As no steps have been taken in Laurium to provide for the erection of the new curling rink, it is expected that the curlers in that village will use the Palestra again this winter.

A reception was tendered to Rev. J. D. Harger, who has accepted the call to the Calumet Baptist church pulpit, at the church, last evening.

Sol Rosenbaum of Lake Linden avenue was married on Thursday evening to Miss Esther Hollander of New York. Mr. and Mrs. Rosenbaum will reside in Laurium.

Mr. and Mrs. W. J. Cameron of Wolfville entertained at a Halloween party this week. About twenty friends were present, and a most enjoyable time was spent.

You Must Depend on Your Druggist

Your physician is usually depended upon to prescribe for you when you are ill. You must place confidence in him. If you would see that his orders are carried out you should visit our store, with your prescriptions, where they will be properly compounded under the direct supervision of a graduate pharmacist. This is very important, otherwise all efforts of the best physician will be an utter failure.

LET US BE YOUR DRUGGIST.
